## 产品发布会 Product Presentation

BioFuze 是沛莱斯纺织有限公司研发的一种特殊涤纶纱线，可以在垃圾填埋场及海洋环境下生物降解。  
BioFuze 的制造过程符合FDA 的要求，并且符合EPA 和欧盟指令。  
BioFuze 制备的产品在日常穿着和使用中不会发生降解，只有在垃圾填埋场和海洋等特定的环境下才会生物降解。

BioFuze is a unique polyester yarn developed by Paradise Textiles that has the ability to biodegrade naturally in landfill and marine conditions. BioFuze manufacturing process abides by FDA requirements and complies with EPA and EU directives. The active ingredients in BioFuze does not promote the biodegradation during the life cycle of the fabric. It only starts to activate once the fabrics are disposed into landfill and marine conditions.
