	<p>LANZHOU SANMAO INDUSTRIAL LLC China Hall 6.1-E11 www.chinapaishen.com</p> <p>Lanzhou Sanmao is a comprehensive woollen spinning textile enterprise in the western region of China, integrating yarn dyeing, combing, spinning, weaving, and dyeing and finishing. The company has successfully developed a series of new wool</p>

blended products including cashmere, OPTIM (fine wool), linen, Lyocell, mulberry silk, silk, Tencel, bamboo, Modal, soybean, corn, milk fibre, and more. Additionally, they have produced a large number of high-tech functional woolen spinning fabrics with features such as UV resistance, radiation resistance, anti-static properties, waterproofing, oil resistance, dust resistance, nano three-proofing, aroma, and machine washability.

Fancy yarn fine spinning fabric

Using high-quality merino wool, blended yarn of recycled polyester fibres, and fancy loop yarn interweaving, the fabric style is unique.

Classic business suit fabric

The fabric uses imported wool, cashmere, mulberry silk, cellulose fibres, polyester fibres, and functional fibre blends from Australia, employing advanced Italian processing techniques to produce classic suit fabrics. The fabric has a delicate and uniform surface, with a full and smooth texture, pure colour, and a moisturized sheen.

**Guangdong Benlia Technology Development Co., Ltd
China
Hall 6.1-G47**

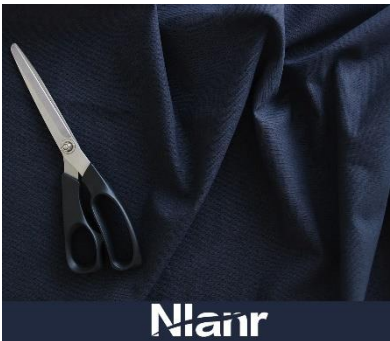

Guangdong Benlia will showcase products that are primarily focused on fashion, leisure, and unique styles. The products mainly follow a quick-turnaround sales model, catering to the rapid response needs of e-commerce and fast fashion trends.

B06428

A fully washable, all-wool product with yarn fibres of cashmere-grade fineness. It has a soft and fluffy texture, good resilience, lightweight when worn, skin-friendly, breathable, warm, naturally antibacterial, and a low-key style. Suitable for making tops, dresses, etc., ideal for use in spring, autumn, and winter.

B06240

This fabric has a natural and fresh texture, with a twist process that ensures a dry and non-sticky feel when worn. It has a moderate drape, which can shape the body silhouette. Suitable for designing various types of clothing, including pants, ideal for spring and summer use.

SHAOXING NALAN TEXTILE CO.,LTD
China
Hall 6.1-D01

Shaoxing Nalan focuses on producing and selling TR and chemical fibre suiting fabrics. The company's products use two-ply yarn weaving, combined with tight filament spinning technology and eco-friendly sustainable recycled materials, greatly enhancing the stability of the fabrics.

At the fair, they will promote:

DOPDYE® knit series

L2261

Composition: 65%T 24%R 8%N 3%SP

Weight: 200GSM

Due to its excellent elasticity, this knit fabric creates a texture similar to woven fabric through a dense structure. It is woven from TR blended with nylon yarn, giving it a smooth and durable feel.

TR multi-material blended series

L77200

Composition: 44%T 33%M 15%R 4%W 4%SP

Weight: 270GSM

Blending polyester and wool can improve a garment's performance. The wool component provides warmth, and combined with the four-way stretch, it offers a broad and comfortable feel. The perfect balance of drape and high-quality fabric makes it a popular choice for the masses.

DOPDYE® stripe series

L7730

Composition: 69%T 29%R 2%SP

Weight: 210GSM

Stripes are the most representative casual element, creating a visual three-dimensional and layered sense, meeting the practical needs of easy outfit combinations. With a moderate weight, it is the preferred choice for dressing in all seasons.
